<https://www.linkedin.com/in/carlosarielburgos/>

Agricultural Engineer with more than 10 years of work experience in national and international top-level companies, achieving efficiency in the control and management of resources to increase efficiency and productivity.

The Pandemic caused me to start a new path in the world of IT companies, here I leave you the main courses that allowed me to acquire this new knowledge.

I am looking for the opportunity to demonstrate my knowledge.

I leave you my networks where you can find all the certificates of the courses taken.
